## general care

---

Vacuum furniture regularly to prevent dust build-up and fibre migration. Professional cleaning is recommended. Treat stains carefully with solvent base upholstery product with caution. Any cleaning agents must be used strictly in accordance with manufacturer's instructions. It is advisable to vacuum before cleaning to remove loose dirt and dust. Clean stains from outside in, do not rub.

## cta performance rating

---

Heavy duty commercial use.

*Minor colour variations within commercial tolerances may occur between batches. Always apply in the same direction.*
